RACINE FEDERATED CREATES PRODUCT GUIDE FEATURING ITS SIX FLOW METER DIVISIONS

Racine Federated, Inc. (RFI) introduces a new product guide listing the company's six flow meter divisions that offer a variety of measurement technology. The group includes Blancett[®], Flo-Tech[®], Hedland[®], Dynasonics[™], Preso[®], and Racine Vortex[™]. With the unique product mix and a team of dedicated and experienced personnel, RFI offers high-quality and cost-effective solutions for most flow measurement applications.

This product guide was designed to incorporate the divisions into one brochure. The eight-page catalog highlights Blancett's turbine meters; Dynasonics' transit time and Doppler meters; Flo-tech's hydraulic testers and sensors; Hedland's in-line variable area flow meters; Preso's differential pressure meters; and Racine Vortex's vortex-shedding flow meters. RFI is a private corporation celebrating over 35 years of continuous operation in Racine, WI. These six divisions serve the industrial, municipal and commercial markets worldwide.

To obtain a product guide, contact Melanie Rasmussen at Racine Federated Inc., 8635 Washington Ave., Racine, WI 53406. Phone: 262-639-6770; Email: melanierasmussen@racinefed.com; Website: www.racinefed.com.
